LONDON, Nov. 17.—The city council has just issued its annual volume of statistics, and it shows some peculiar characteristics of the biggest city in the world. It shows London also to be the wealthiest, in a sense, and yet it is the most poverty-stricken.

The population is within a few thousand of 5,6,3,000, while around the city is a short dictance living in suburbar, villages are nearly 3,000,000 more. The population is everlastingly changing, and every hour fourteen little London-ers are born and eight die. Twenty persons of every hundred die in the workhouse.

The condition of Policeman Milton Warren, who has been confined to his lome for some time, is reported to be nuch improved.
